

EXPLORATION SERVICES

Concept to Completion

Eagle Plains combines leading-edge data capture and analysis with proven exploration techniques to deliver comprehensive solutions to geological challenges.

Our qualified personnel will maximize your exploration dollars and increase your chances of discovery!

Eagle Plains
Resources Ltd.

Data Management

- In-house expertise utilizes custom systems to seamlessly integrate every aspect of your data offering a unique perspective
- Advanced digital field data collection techniques provide confident real-time decisions with increased efficiency
- Services include:
 - ▶ *Data Mining / Capture*
 - ▶ *Custom Database Design*
 - ▶ *Geochemical Analysis and Statistics*
 - ▶ *Digital Field Data Collection Systems*
 - ▶ *Portable XRF Analysis*
 - ▶ *GIS / Cartography*
 - ▶ *3D Modeling and Visualization*
 - ▶ *QA/QC*
 - ▶ *Budget Tracking*
 - ▶ *Tenure Management*

Regional Analysis

- Advanced database & GIS platforms provide the flexibility to integrate diverse data sets with evolving deposit models
- Effective exploration strategies and unique opportunities
- Services include:
 - ▶ Digital Data Acquisition and Integration
 - ▶ Remote Sensing
 - ▶ Deposit Specific Modeling & Analysis
 - ▶ Initial Target Definition

▶ Custom Exploration Strategy

District Exploration

- Implement project-specific field exploration strategies
- Identify targets for project generation on-time and on-budget
- Services include:
 - ▶ Project Management
 - ▶ Complete Range of Field Services
 - Camp Construction
 - Geologic Mapping
 - Geochemical Surveys
 - Historic Property Evaluation
 - ▶ Academic Partnerships
 - ▶ Experience in Remote Locations

▶ Project Generation/Advancement

Property Evaluation

- Project-specific planning and budgeting
- Services include:
 - ▶ Tenure Acquisition / Management
 - ▶ Permitting
 - ▶ Target Definition
 - Prospecting
 - Geochemical Surveys
 - Geophysical Surveys
 - Geologic Mapping
 - Real-Time Portable XRF Analysis
 - ▶ Drill Program Management
 - Core Logging / Geotechnical Services
 - Intensive QA / QC Procedures
 - 3D Modeling / Visualization
 - ▶ Technical Report Production
 - NI 43-101, Assessment, Listing
- Oil and Gas Wellsite Consulting
 - ▶ Conventional / CBM / Vertical - Horizontal

▶ Resource Definition

Responsible Exploration

- Excellent safety record
- Employees undergo annual safety training that exceeds industry standards
- Proactive First Nations and community relations
- Conscientious environmental practices
